

A MESSAGE FROM SHERIFF MIKE BROWN

Dear Moose Member:

Over 88,000,000 children have access to the Internet every day. There are thousands of child sexual predators who lurk online, working for hours, days, even months, befriending innocent and unsuspecting children. They do this solely for the opportunity to lure them away from their homes and meet with them in person for their sick and illicit addictions.

The number of officers working to protect our children from online predators is so few, they can not begin to stop or even to slow these sexual predators from their relentless and horrendous attacks on our children.

Now there is help to get more officers online, protecting our children and putting these predators where they belong; behind bars! LEAAP is the Law Enforcement Agency Assistance Program which enables the Safe Surfin' Foundation to make these Cop-in-a-Box programs available to local law enforcement in your community.

INTRODUCING OUR LATEST PROGRAM

Cop-in-a-Box

As police budgets across America continue to shrink, child sexual predators continue to lurk on the web, their numbers increasing at an alarming rate, obsessively searching for their next *child victim*.

This high-tech world of cyber crime requires specialized equipment, dedicated resources, intensive training and committed investigators.

COP-in-a-BOX

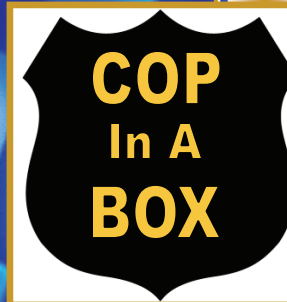

Will provide the equipment and training to local law enforcement!
