

# HERO. CHILD-RESCUE CORPS

This elite team of U.S. military professionals have arrived on a new battlefield with an urgent mission;  
**TO LOCATE AND RESCUE AMERICAN CHILDREN FROM SEXUAL ABUSE AND HUMAN TRAFFICKING.**

The first 19 members of the H.E.R.O. Corps were ready to undergo intensive training for their next assignment as online investigators protecting children. However, when the sequestration caused a cut in the funding there was no way to buy the necessary computer equipment for them to operate. Sheriff Brown and the Safe Surfin' Foundation were asked to help. With the generous funding from Moose International, these brave HEROs were given the high-tech equipment that they need to carry on their next mission of protecting children from those that lurk online to do them harm.

Sheriff Mike Brown speaks to the troops with their computers in the background. Note the Moose logo on boxes

The first graduating H.E.R.O.s class all smiles and ready to start their new mission.
